INTRODUCTION

- Dermatology, the science of skin, is one of the many specialties that have evolved from general medicine, although its recognition as a distinct specialty is recent.

- Dermatological diseases (including Venereology and Leprology) constitute approximately 30% of outpatient attendance in any hospital.

- The department though initially accredited to undertake training of undergraduate students, presently is recognized by the Medical Council of India (MCI) to train young doctors for postgraduate degree in dermatology.
The department is well provided with state of the art equipment and continues to acquire more equipment which is required for imparting training to the students.

The department is located on the ground floor of the O.P.D wing of the hospital building. Constructed in approx. 3281 sq. ft. total area, 160 sq. ft. is occupied by the reception counter, 1333 sq. ft. by patients’ waiting lounge, 300 sq. ft. by H.O.D chamber, 448 sq. ft. by seminar room, 160 sq. ft. by the procedure room and 880 sq. ft. by the O.P.D. hall.
To emerge as a department of excellence, by providing competent specialty services
MISSION

- Promote value based subject education.
- Provide specialty services at an affordable price
- Serve rural/poor people
- To provide research driven health care
Right since its establishment, the department is providing excellent clinically oriented academic training programme to the budding clinicians.

We offer postgraduate course (MD) in Dermatology, Venereology and Leprosy (DVL) in addition to imparting dermatology training to undergraduate students (MBBS).
The department boasts of a faculty consisting of eminent and well-qualified dermatologists, all of whom have years of clinical and teaching experience.

Faculty has also furthered the research activities of the department, and played perhaps the biggest role in the overall development of the quality of health care, including initiation of several innovative teaching methods and research projects.

LIST OF POSTGRADUATE STUDENTS

- Dr. Dr. Syeda Juwaria Tasneem, Final year
- Dr. Amrutha Subramanya, Second year
- Dr. Megha.C, Second year
- Dr. Safal Rahim, First year
- Dr. Keerthi. S, First year
DEPARTMENTAL FACULTY AND POSTGRADUATES
OUTPATIENT CONSULTATION IN PROGRESS
PROCEDURE ROOM / MINOR OT
PHOTOTHERAPY UNIT AND TARGETED PHOTOTHERAPY
FRACTIONAL CO\textsubscript{2} LASER
Major equipments include
- Fractional Carbon Dioxide (CO₂) Laser
- Targeted Phototherapy unit
- Full body Phototherapy unit (both UVA & UVB)
- Microdermabrader,
- Electrocautery & Radiofrequency instrument
- Motor Dermabrader
- Tattoo machine and Woods lamp
- Vitiligo punch/ suction blister grafting set
- Dermarollers,
- Skin biopsy punches
- Various chemical peels
LIST OF TOPICS FOR UNDERGRADUATE THEORY CLASSES

- Structure of skin and its appendages.
- Structure of hair, alopecia and hirsutism.
- Structure and Functions of Nail and its disorders.
- Structure of Sebaceous glands and its disorders.
- Structure of Sweat glands and its disorders.
- Fungal infections.
- Pyodermas.
- Viral infections
- Photodermatology and photodermatoses.
- Melanocyte, pigment metabolism, and disorders of pigmentation.
- Papulosquamous disorders.
- Contact dermatitis.
- Vesiculo Bullous Disorders.
- Nutritional disorders.
- Skin in systemic disorders.
- Sexually transmitted diseases.
- Leprosy.
Department provides up-to-date facilities for teaching and learning for U.G. and P.G programmes

Well established departmental and central library. Central library stocks 283 books on the subject by eminent authors.

Regional, national and international journals available in central as well as in departmental library.
- Conducts regular lectures and clinics to undergraduates, and also covers topics keeping in mind that are important from the postgraduate entrance examination point of view

- Computer and internet facility to learn e-medicine

- Topic slides with a slide projector and over forty five power point presentations helps to understand the subject clearly

- To further develop interest in the subject, the department conducts problem based learning (PBL) courses for the undergraduates
Weekly journal club meetings, seminar presentations, histopathology slides, drug of the month, procedural and instrument discussion as a part of teaching activity for postgraduate students.

Conduct value added courses and enrichment courses to keep our postgraduates updated with the recent advances.
Departmental side laboratory with reagents for Gram’s stain, Zeil Nielsen stain for Slit Skin Smear, Giemsa stain and Potassium Hydroxide for fungal smear.

Self illuminated microscope, dark room for Wood’s lamp examination, minor OT/procedure room for various dermatosurgical procedures and phototherapy room.
Undergraduate students are posted to our department as a part of their M.B.B.S. curriculum.

We follow the Rajiv Gandhi University of Health Sciences (RGUHS) syllabus for teaching undergraduates (M.B.B.S.), and also cover topics not included in RGUHS syllabus to enrich the curriculum.
The aim of teaching the undergraduates in Dermatology, Venerology and Leprology is to impart knowledge and skills that will enable them to diagnose and treat common ailments.

They are taught to take case history, examine, diagnose and treat common dermatological diseases in the outpatient and wards. Theory aspects of dermatology are also taught.
We also conduct problem based learning for Undergraduates during their clinical postings

Topics
- Fever with rash
- Hyperpigmentation
- Genital ulcer
- Leg ulcer
During internship we focus on clinically oriented teaching for those students who are on the verge of becoming clinicians and also train them to take up postgraduate entrance examinations
Criteria and Eligibility for Registration

M.B.B.S of this university or any equivalent examination recognised by M.C.I

Period of teaching

Three years after registration as post graduate students for MD course
- Work as full time residents during the period of training, attending not less than 80% of the training during each calendar year and will be given full time responsibility, assignments and participation in all facets of the education process.

- Keep record of their clinical, laboratory operative work etc, countersigned by teacher under whose guidance work was done.
The thesis / dissertation is compulsory for candidates registered for MD and should include candidate’s own work under a supervisor qualified for the purpose and recognized as a post graduate teacher by the university.

POSTGRADUATE COURSE CONTENTS
PRESCRIBED BY RGUHS

- Introduction, historical aspects and epidemiology
- Comparative dermatology
- Anatomy and organization of human skin
- Functions of skin
- Diagnosis of skin disease
- Histopathology of the skin-general principles
- Inflammation
- Clinical immunology and allergy
- Genetics and genodermatoses
- Prenatal diagnosis of skin disease
- The neonate
- Naevi and other development defects
- Pruritus
- Eczema, Lichenification, Prurigo and Erythroderma
- Atopic dermatitis
- Irritants and Sensitizers
- Occupational dermatoses
- Reactions to mechanical and thermal injury
- Reactions to cold
- Cutaneous photobiology
- Viral infections
- Bacterial infections
- Mycobacterial infections
- Leprosy
- Treponematoses
- Mycology
- Parasitic infestations and Protozoa
- Diseases caused by arthropods and other noxious substances
- Disorders of keratinization
- Psoriasis
- Epidermal skin tumours
- Tumours of the skin appendages
- Melanocytic Naevi and malignant melanoma
- Disorders of skin colour
- Bullous eruptions
- Lichen planus and Lichenoid disorders
- Disorders of the sebaceous glands
- Disorders of sweat glands
- Disorders of connective tissue
- Disorders of blood vessels
- Rosacea, Flushing, and perioral dermatitis
The connective tissue diseases
Metabolic and nutritional disorders
Sarcoidosis
Systemic diseases and the skin
Reiter’s disease
Skin and the nervous system
Psychocutaneous disorders
Disorders of nails
Disorders of hair
The skin and the eyes
The external ear
The Oral cavity
The Lips
The Breast
The Umbilical, Perianal and Genital Regions
- Urticaria
- Purpura
- Cutaneous vasculitis
- Diseases of the veins and arteries including leg ulcers
- Disorders of lymphatic vessels
- Necrobiotic disorders
- Histiocytoses
- Mastocytoses
- Soft tissue tumours
- Cutaneous lymphocytic infiltrates and pseudolymphomas
- Lymphomas and leukaemias
- Subcutaneous fat
- Racial Influences and skin disease
- The ages of man and their dermatoses
- General aspects of treatment
- STD’s
- HIV infection & AIDS
- Cutaneous drug eruptions
- Dermato–Pharmacology
- Dermato–surgery
- Lasers in Dermatology

NOTE: Candidates are expected to be well versed in histopathology of all diseases

MODERN TEACHING METHODS PRACTICED

- Lecture method – black board
- Powerpoint
- Practical teaching – in form of OPD teaching, bedside teaching,
- Demonstration of laboratory procedures
- Demonstration of therapies.
- Hands on experience - Available.
LEARNING RESOURCES OF THE DEPARTMENT

- Library - Departmental and Central
- Computers
- LCD
- Speciality specific Softwares
- Broadband / WIFI
- Models for teaching - Available (In the form of Charts).
- Teaching aids – Available.
- Laboratories - Available.
Major equipment details

- Dark ground Microscope
- Electro Cautery machine
- Radio Frequency machine
- Whole body Phototherapy unit
- Targeted Phototherapy unit
- Cryotherapy Unit
- Dermabrader motorised
- Dermaroller
- Fractional and conventional CO2 Laser Unit
OTHER INSTITUTIONAL FACILITIES USED BY OUR DEPARTMENT

- Central Library
- Pathology lab
- Microbiology lab
- Biochemistry lab
- Central laboratory
- Radiological facility
- Information Technology section
- Photography section
These statistics shows that we have succeeded, to fulfill our vision and mission and at the same time ensured that we are not lagging behind in latest treatment modalities and advances in the field.

PAPERS PRESENTED AT CONFERENCES
Deputy Editor of Text Book on Cutaneous and Aesthetic Surgery, by Association of Cutaneous Surgeons of India. – **Dr. Umashankar.N.**

He has also authored three chapters in this text book. Text book is published by Jaypee.

**Dr. Umashankar.N** has authored a chapter titled ‘Nail Cosmetics’ in text book Nail & its Disorders, editors: Dr. S. Sacchidanand, Dr. Savitha. A S. 2013, Jaypee publications.
International/ National/ Others

Dr. Vivekananda.
- Chaired a session during MID DERMACON, at Mercara, in May 2013.
- Chaired a session during IMSACON 2013, Bangalore, October 5th & 6th.

Dr. Umashankar.N.
- Chairperson in a session during CODFI (Contact and Occupational Dermatoses Federation of India) Conference 2009, Bangalore
- Chairperson in a session during DERMAZONE, Mysore 2010.

Dr. Belliappa P.R.
- Chairperson in a session during IMSACON 2013, Bangalore, October 5th & 6th.
- Chairperson in a session during Telederm India 2011, Chennai, 7th & 8th October, 2011.
List of academic, research, best papers awards received / National / International fellowship

Dr. Umashankar.N.

- Awarded 'Young Dermatologists Award' during IADVL KN State Conference. Medical Education Minister Dr. Sharan Prakash Patil handed over the award.

- Currently serving as Hon General Secretary of Karnataka branch of Indian Association of Dermatologists, Venereologists and Leprologists.

- MGM Award for Best Paper Presentation in National Conference of Indian Association of Dermatologists, Venereologists and Leprologists (IADVL), Chennai, India.

- IADVL Fellowship in HIV medicine, Mumbai, India. Indian Association of Dermatologists, Venereologists and Leprologists (IADVL), 2004

- International Congress of Dermatology (ICD) Scholarship Awardee 2009 and represented India and presented a scientific paper during ICD Meet 2009, Prague, Czech Republic.

- Scientific Secretary during VITILICON 2011, First International conference on Vitiligo, held at Bangalore.

- State Coordinator- ACS(I)- Association of Cutaneous Surgeons of India.

- Joint Secretary and Treasurer, ACSICON 2013, Bangalore.
Dr. Belliappa P.R.

- Advanced Course in Cosmetic Dermatology & Laser Surgery Training in Kasemrad Hospital, Bangkok, Thailand under the guidance of Dr. Prof. Niwat Polnikorn, from September 25th to 28th, 2010.

- Advanced Course in Aesthetic Dermatology and Lasers in Cosdermindia, Conducted at Goa, October 8th to 11th, 2011.

- Executive Committee Member of Karnataka Branch of Indian Association of Dermatologists, Venereologists and Leprologists.

- Executive Committee Member of Indian Society of Teledermatology.

Dr. Priya K.S.

- CODFI-IAISD Award for best published paper in Indian Journal of Dermatology on Contact & Occupational Dermatology during the Year 2008.
Dr. Hari Kishan

- Joint Scientific Secretary of VITILICON 2011, 1st International conference on Vitiligo and its awareness, held on April 21-23, 2011 at Eagleton Resorts, Bangalore.
- Ramathibodhi Advanced Course in Cosmetic Dermatology & Laser surgery Training in Mahidol University, Bangkok, Thailand from July 16th to 18th 2012.
- Expert Reviewer for International Journal of Sexually Transmitted Diseases and AIDS.
- Joint Secretary of Bangalore Dermatological Society for the year 2013 and 2014.

Dr. Sapnasree Bhaskar

Dr. Syeda Juwaria Tasneem

- Morphea And Sarcoidosis In Pregnancy – A Diagnostic Dilemma - Bangalore Dermatology Society meeting, City Institute, April 21st, 2012.
- A Case of Recurrent Photosensitive Rash - Bangalore Dermatology Society meeting, City Institute, April 21st, 2012.
- Cicatricial Alopecia with Zinc Deficiency - Bangalore Dermatology Society meeting, August 18th 2013.
- Chronic Tophaceous Gout with Mutilative arthritis - IMSACION 2013
- Glove and stocking anaesthesia-an usual variant of a known disease - IMSACION 2013
Dr. Megha.C

- Annular Plaques and Bullae - Great Marker and Mimicker - Bangalore Dermatology Society meeting, August 18th 2013.
- Rash in old age an alert to physician - IMSACON 2013
- Epidermolysis Bullosa Acquisita: Marker And A Mimicker! - International Congress of Dermatology 2013, NEW DELHI

Dr. Amrutha Subramanya

- Cutaneous atrophy- A series of 2 cases - Bangalore Dermatology Society meeting, August 18th 2013.
- Junctional Epidermolysis bullosa – Herlitz type, a rare case - IMSACON 2013
- CO2 laser a novel approach in a case of non-healing ulcer with dual challenges - 4th Annual Conference of IADVL–Karnataka, CUTICON-KN 2013 held at Shimoga on 26th and 27th October 2013
- Zosterisorm cutaneous metapstates mimicking lymphangioma cirumscriptum - International Congress of Dermatology 2013, NEW DELHI.
A clinical study of dermatological conditions along Blaschco’s lines

A clinical study of Acrofacial Hypopigmentation

Evaluation of effect of Valciclovir on pain in Herpes Zoster with respect to time of initiation of treatment

A study on the clinical profile of dermatoses induced by Topical corticosteroids

A study of chronic leg ulcers with special emphasis on commorbidities associated with venous ulcers
Conducted Cutaneous Medicine Lecture Series – 2011, at Rajarajeswari Medical College and Hospital on 8th November, 2011.

Hosted Bangalore Dermatology Society Meet at City Institute, on April 21st 2012.

Hosted Bangalore Dermatology Society Meet at City Institute, on August 18th 2013.

World AIDS Day was observed on 1st December, 2011 in collaboration with Department of Microbiology.

Leprosy Day was observed on 2011, in collaboration with Leprosy Hospital, Sumanahalli. An awareness programme on leprosy was arranged for the public as part of the programme.
GREETINGS

Dear Colleagues,

Department of Dermatology takes great pride in inviting you to the first Cutaneous Medicine Lecture Series (CMLS-2011).

CMLS is a common forum where disorders of all specialities of medical profession with cutaneous manifestations will be discussed. This benefits all, particularly post-graduates to update their knowledge in dermatology as skin acts as a marker of several systemic disorders.

Date : Tuesday, 8th November, 2011
Time : 11.30am
Venue : College auditorium

We solicit your kind hearted co-operation, support and participation to make this CMLS 2011 a great success.

With warm regards

Vivekananda
Organizing Chairman

Umashankar.N
Organizing Secretary

WORLD AIDS DAY, 1ST DECEMBER, 2011.
Multidisciplinary camps in order to provide dedicated speciality service for economically poor people of remote places of Bangalore.

Consultation comprises of diagnosis, treatment and counselling of the skin problems which are associated with social stigma and help them to lead their life fearlessly.

Speciality services to remote area patients through weekly visit to Urban Health Centre.
OUTREACH MULTISPECIALITY CAMP IN PROGRESS
SERVICES OFFERED

- Treatment of common dermatological diseases
- Skin biopsy
- Slit skin smear
- Microdermabrasion
- CO$_2$ Laser
- Vitiligo Surgeries
- Phototherapy
- Chemical Peels
- Inpatient facility for dermatological emergencies and conditions which need admission
- Forty beds are allotted separately to the department
- Distinguished clinical facilities in the form of speciality clinics for common dermatological disorders like pigmentary disorders, contact dermatitis, aesthetic problems, hair disorders, leprosy and sexually transmitted diseases are offered on different designated days.
