SWOC
STRENGTH

- Extra ordinarily experienced and gifted faculty members capable of shouldering all responsibilities of teaching, surgical procedures, investigative procedures like upper GI endoscopy, colonoscopy and laparoscopy and under taking of research projects.
- A very good load of clinical material
WEAKNESS

No obvious weakness
OPPORTUNITY

- Observership programme made available to send our UGs and PGs to Hammersmith hospital
- Exposure to various national and international conferences in our institute – A forum of interact with national and international faculty
- Our faculty and students are encouraged to attend all workshops and CME taking place in the state and outside.
CHALLENGES

- To provide quality teaching to our UG and PG students for them to excel in their future endeavors
- To provide the best medical care for the needy under one roof without making them run from pillar to post
- To provide a healthy environment and infrastructure for conducting research
PROBLEM BASED LEARNING

- Haematemesis
- Understanding rectal bleeding
- Splenomegaly
- Obstructive Jaundice
ENRICHMENT COURSES

- Training in upper GI endoscopy
- Training in colonoscopy
- Training in laparoscopy
Thank you
