VISION
To provide quality medical Education to allow students to perform optimally, physically and mentally, to realise their academic and intellectual potential through the provision of quality, accessible, comprehensive academic programs.

MISSION
To assist students in their acquisition of the knowledge, skills and behaviours necessary to recover, build and maintain health & balance lifestyles.

MOTTO
We serve to educate future health care providers, health educators, and participants in research enhancing their academic goals and personal development.

Combining experience with Commitment
The RajaRajeswari Medical College has maintained a tradition of excellence and opens its doors to young aspiring professionals who choose to embark on a career in Medicine. You could make that choice and be one among the successful breed of professionals with a global career.
GAINING THE HEALING TOUCH

It may be a mere coincidence but the location of the Raja Rajeswari Medical College & Hospital atop a hill is symbolic of its aim to take medical excellence higher. Set in a serene 25 acre campus in the South-West of Bangalore, the college and hospital have made their mark in the field of medicine. Conducting graduate and post graduate courses, the college provides excellent infrastructure for learning and a faculty that is dedicated by creating the very best medical professionals.

The 1300 bed hospital that is part of the campus is a multi-specialty tertiary care centre that draws patients from all strata of society. Actively engaged in medical research, Raja Rajeswari Medical College & Hospital is an institutional member of the International Medical Sciences Academy (IMSA), a global body that aims at enhancing medical care around the world. A member of IMSA programs such as seminars, workshops, exchange programs etc. are conducted at Raja Rajeswari Medical College & Hospital and the Chairman, Sri. A.C. Shanmugam has been made an Honorary Fellow of the IMSA.

Raja Rajeswari Medical College & Hospital is Recognized by MCI and affiliated to RGUHS and currently offers a range of courses to those seeking to enter the medical profession.

Under Graduate Program
- MBBS

Post Graduate Programs
- M.D General Medicine
- M.D Paediatrics
- M.D Skin & VD
- M.D Anaesthesiology
- M.D Radio-Diagnosis
- M.D Pulmonary Medicine (TB&RD)
- M.D Psychiatry
- M.S General Surgery
- M.S Obstetrics & Gynecology
- M.S Orthopaedics
- M.S Ophthalmology

Fellowship Programs
- Head & Neck
- Neonatology

A CITY THAT WELCOMES

Counted among the best Indian cities to live in, Bangalore is a cosmopolitan metropolis that attracts people from all over. Known as the Garden City and the IT Capital of India, it is a gracious blend of the old and new. Bangalore’s excellent climate, greenery and opportunities for education and careers has seen an influx of people from all over the country and every one who comes has been welcomed with open arms.

The royal city of Mysore is less than three hours away from Bangalore. With a host of historical sites, this city is an international tourism destination with the Mysore Palace drawing more visitors than even Buckingham Palace in London. Other destinations close at hand from Bangalore include Halebidu, Beluru, Shravanabelagola as well as wildlife sanctuaries for nature lovers.
ACHIEVING
GLOBAL STANDARDS

Over the past 8 years, the Raja Rajeswari Medical College & Hospital has actively engaged in medical research. Raja Rajeswari Medical College & Hospital is an institutional member of the International Medical Sciences Academy (IMSA), a global body that aims at enhancing medical care around the world. The college has entered into a student exchange program with Hammersmith University (UK) besides others like Mayo Clinic (US). IMSA programs such as seminars, workshops, exchange programs, conferences etc are conducted at Raja Rajeswari Medical College & Hospital and the Chairman, Sri A.C. Shanmugam has been made an Honorary Fellow of the IMSA, first of its kind given to a non-medical person for his path breaking contribution to the field of medical education. The college is on the verge of getting the accreditations by NABH, NAAC and some more accreditations are in the pipeline.

VOICING THEIR VIEWS

When my daughter stepped into RRMC I knew that this was where I wanted my son to study because I saw it was an institution devoted to medical excellence.

Parents of first year student

I think RRMCH is one of those rare medical colleges in the country that has both, excellent faculty and excellent facilities. My daughter is sure that by the time she graduates, she will be a thorough medical professional.

Parents of final year student

The first year at Raja Rajeswari Medical College has been a truly memorable one for son and he is looking eagerly forward to each day of his second year. I can see with the training my son has had at RRMCH, his future in medical profession will be highly successful.

Parents of second year student

The difference, I believe, is dedication. At RRMCH, you can feel the dedication in every aspect. So it is in the training of aspiring doctors or the treatment rendered out to patients and my daughter has imbibed that quality from the core.

Parents of second year student

When my daughter stepped into RRMCH all of us were nervous about her future. But today when I see the confident, efficient doctor she has become we know that she couldn’t have made a better choice than the one she did.

1. Anti-ragging Committee for 2012-2013 has been formed headed by the Medical Director as Chairman of the committee and also represented by the Sub Inspector (Thalaghattapura Police Station), Vice President of Kumbulgod Zillah Panchayat, local media person and a member of a NGO for youth development, as well as all the Heads of the departments.

The committee member list has been included in the prospectus of the College with respective contact numbers of all members.

2. Freshers are also included as committee members.

3. Senior students (Mentors) have been identified and their contact numbers provided.

4. A Counseling Cell has been set up, which includes active Participation of Department of psychiatry.

5. An anti-ragging squad including senior faculty members has been formed & the members make evening/night rounds (every day by turn) of the campus including hostels, canteen & other sensitive areas.

6. Freshers have been addressed about the measures in place and not to fear in reporting any act of ragging or harassment at any place (inside or outside campus) by senior students.

7. Posters regarding prohibition of ragging are displayed at all sensitive areas in the campus detailing the strict Punishments as prescribed by UGC & MCI regulations and also the Anti-ragging helpline (Toll-Free number) & Website.

Due to the measures adopted, there is no incidence of ragging reported in the first half of the academic year 2012 - 13.
CREATING THOROUGH PROFESSIONALS

Raja Rajeswari Medical College & Hospital leaves no stone unturned when it comes to providing a comprehensive medical education. Experienced faculty, interactions with specialists and the practical experience gained in the hospital and research labs ensures that graduate and postgraduate students are left with no gaps in knowledge. Raja Rajeswari Medical College & Hospital offers comprehensive medical training through its various departments.

- Department of Anatomy
- Department of Physiology
- Department of Biochemistry
- Department of Pharmacology
- Department of Pathology
- Department of Microbiology
- Department of Forensic Medicine
- Department of Community Medicine
- Department of E.N.T.
- Department of Obstetrics and Gynaecology
- Department of Ophthalmology
- Department of Medicine
- Department of Paediatrics
- Department of Radiodiagnosis
- Department of Dermatology
- Department of Psychiatry
- Department of Surgery
- Department of Orthopaedics
- Department of Anaesthesiology
- Department of Obstetrics and Gynaecology

Raja Rajeswari Medical College & Hospital is also home to a medical museum that adds an extra dimension to medical learning. Encompassing pathology and anatomy, over 300 dissected specimens and a 1000+ models enable students to gain a deeper understanding of the human body and the afflictions it is prone to.

CONVENIENT COMMUTING

For the convenience of students and faculties staying off-campus, RRMCH has a fleet of 20 buses that ferry them to and fro. The buses traverse the city and suburbs and routes are planned with a view to provide maximum convenience even as they meet students’ study schedules. Additionally the college has the advantage of being well connected to the BMTC bus services and a major station of the under-commission Metro railway is just a few minutes away.
PASSING THROUGH THE PORTALS

Though the RRMC is still comparatively young at age, its graduates have already begun to carve a reputation for themselves in the medical field. The third batch of students who will be graduating will be part of a grand convocation that signals their entry into the medical profession. A strong alumni network is already in place to help graduating students make his or her place in their chosen profession. Supported of course, by a faculty that endeavours to ensure that career opportunities are maximized.
Thorough knowledge of all that makes up the human body is essential for a medical professional. The Department of Anatomy ensures that students understand every aspect of the body from head to toe. A combination of lectures, visual presentations and dissections are utilized to this end. A Histology Lab and an Anthropological lab form a part of the department. The setting up of a cytogenic lab is under active consideration to add to the department’s capabilities.
Excellence is the foundation upon which RRMCH is built and it draws inspiration from achievers in all walks of life. The College has had the privilege of visits by a host of dignitaries ranging from former President of India, Sri APJ Abdul Kalam, Dr. K. Radhakrishnan, Chairman-ISRO, Madhavan Nair Ex-ISRO, Chief, Narayanswamy, Union Minister of state in PMO, Dr. Ian Anderson President, Royal College of Physicians & Surgeons (UK) to Sporting personalities such as Anil Kumble and Sania Mirza. Students have also gained inspiration from leading cine personalities, political leaders and achievers in varied fields.
The Department of Physiology aims at providing students in-depth knowledge of human physiology through classroom teaching and direct observation in specialized labs for hematology, clinical physiology, and human experiments. The labs are equipped with advanced systems such as spirometers, 4 channel physiograph, ECG, EMG, Ergo Graphs & Polygraphs that aid in both teaching and research. Expansion plans include an autonomic function lab, pain neurophysiology lab, and Electrophysiology lab.
Music, dance and drama are a part of Indian's cultural ethos and at RRMCH, students get ample opportunities to participate in cultural activities. The college curriculum is paced in such a way as to allow students to develop their cultural talents, be it dance or debate. The excellent facilities at the ACS Conventional Hall offers students a large stage to build their interactive, organizational and cultural strengths through events and shows.
An understanding of the scientific basis of life processes at the molecular level is what the Department of Biochemistry imparts to students. This knowledge can then be applied to solving clinical cases. A sophisticated lab provides training to students, diagnostic services to patients and conducts research in the areas of immunology, protein biochemistry, molecular biology, neurobiology, molecular biophysics, bioenergetics, molecular virology, molecular genetics and the rational use of drugs in treatment. The goal is to enable students to judiciously choose drug combinations for their therapeutic value in both, the individual and community setting.
DEPARTMENT OF MICROBIOLOGY

The Department of Microbiology gives students an insight into a range of areas spanning Immunology, Parasitology, Virology, Mycology, Mycobacteriology and Entomology. The already well-equipped lab is now in the process of inducting advanced systems such as BACTEC, BACTALERT, FLOWCYTOMETRY, PCR etc. In co-ordination with other departments, the Microbiology Department is also involved in national health programs such as RNTCP for tuberculosis, NLEP for leprosy and ICTC for HIV.

STAYING FIT AND FINE

As an institution dedicated to healthcare, RRMCH lays emphasis on providing excellent fitness facilities to students. This takes the form of a full-fledged health club. The gymnasium at the health club is equipped with the latest fitness training equipment. Additionally, the health club also features separate Sauna, Yoga and jacuzzi besides a special Steam room for health benefits. Also attached to the health club is an excellent Swimming pool that stays open from early in the morning to late at night. All facilities at the health club are free of charge for students.
Recognizing the importance of sports and games for the development of both body and mind, RRMCH has established comprehensive facilities for students. The sporting infrastructure include cricket, football, tennis, basketball, volleyball grounds and courts. Facilities are also available for indoor games such as table tennis, chess and badminton. Teams from the college regularly participate in inter-collegiate events and they have done the college proud in various sporting disciplines.
The Department of Pathology helps students advance their knowledge of pathological conditions. The Department utilizes advanced systems for routine and specialized diagnosis and students are encouraged to refer to the vast collection of CDs and slides. Computers and Binocular Microscopes with CCTV further aid students in the learning process.
On-campus accommodation is available to out-station students in the 4 spacious hostels. Separate UG and PG hostels for boys and girls accommodate up to 2500 students with a choice of individual and shared rooms. Clean and airy, the rooms offer beds, wardrobes and study tables and chairs. A common room with recreational facilities, laundry facilities and mess facilities are features of each of the hostels, besides a visitors room. Guest faculty, visitors and others are accommodated in well-furnished guest houses which are available on advance intimation and availability. The canteen at RRMCH is yet another facility that adds to the homely atmosphere. The canteen offers appetizing fare ranging from snacks to full fledged meals spanning South Indian, North Indian and Chinese cuisine.
Department of Pharmacology strives to train undergraduate and postgraduate students of the college in pharmacology. The Department has a vibrant postgraduate teaching program catering to various aspects of experimental and clinical pharmacology. The training is conducted so as to produce a blend of traditional skills along with a modern outlook so that the trainees can start from scratch on any drug related issue and are capable to take the matter to logical conclusion.

Hands-on practical training of Drug Assays and Pharmacometrics are supported by thoughtfully planned seminars, workshops. The faculties and postgraduate trainees undertake and participate in research projects in addition to their teaching work.

The Department also inculcates and encourages research aptitude in undergraduate students and help them to undertake short term studentship research projects.
DEPARTMENT OF FORENSIC MEDICINE

The Department of Forensic Medicine as a subject deals with the concept of imparting knowledge of Medico-Legal responsibilities to the treating physician and various problems pertaining to the practice of legal medicine.

The curriculum includes syllabus on Medical Jurisprudence, Forensic Pathology, Viscera Packing Application of Anthropology, Toxicology, etc...

The department is vested with a good laboratory having adequate Microscopes and Specimens. Clinical Forensic Median services, Medico legal Postmortems in the Mortuary, Toxicology lab works, Court related work also come under the department.

The Department is planning to add a DNA fingerprinting lab to further its capability in forensics.
To supplement the knowledge acquisition process, Raja Rajeswari Medical College & Hospital has a large central library independent of the departmental libraries. This central facility is well-stocked with books spanning the gamut of healthcare subjects. The library also subscribes to a range of specialized journals to help students keep pace with the advances in medicine. The library also has a digital section that stores medical information in the form of CDs / DVDs and offers access to online medical literature through the HELINET. Open from 9 am to 9 pm on all working days, the library offers students quiet reading rooms and facilities for photo copying of material.
The Hospital adheres to a single standard for assessing and meeting community need, while retaining a geographically focused approach for soliciting community participation and involvement and providing community outreach.

The Department has hosted innumerable training conferences of both National and International repute. Training course on “Public Health Emergency - Disaster Preparedness & Response” from 25th to 29th October 2010 & 19th Sep to 23rd Sep, 2011, 10th Sep to 14th Sep 2012, in coordination with Health Protection Agency UK is one such example.

Reaching Out

Field Based Activities of Department of Community Medicine include adoption of Primary Health Centre – Ittamuda Village, Ramanagar Dist., Urban Health Centre – Agara, Urban Health Centre – Channasandra, Community Care Centre – Ramanagar Town, Ramanagar Dist. which is a supporting centre for HIV/AIDS under NACO, India.

Grama – Panchayathi Population - Adoption Programme with allotment of unique identification number for every house – hold, for provision of cashless Health Services at RRMCH Hospital & Household surveys are conducted by the Para-Medical workers of the department.

The Department has networked with Govt. bodies, NGO’s Rotary hospitals for outreach activities Alliances with Karnataka Health Protection Agency (KHPT), Department of Health & Family Welfare, Department of Factories & Boilers, Govt. of Karnataka & India & Health Protection Agency (HPA) UK, Birmingham, etc, which has enriched the Department in Academics.
The 1300 bed hospital that is a part of the RajaRajeswari Medical College & Hospital campus is where students are exposed to healthcare in action. Students gain a holistic view of the medical profession and the realities of the working environment.

A full-fledged tertiary care centre that caters to virtually every medical need, the hospital provides practical learning in the departments that are its constituents:

**SUPER SPECIALTIES**
- Arthroscopy & Joint Replacement
- Assisted Reproduction Centre
- Cardiology
- Child Development Clinic
- Diabetes Centre
- Executive Health Check-up Centre
- Gastroenterology & Hepatology
- Neonatology
- Nephrology
- Head & Neck Oncology
- Paediatric Surgery
- Plastic Cosmetic & Reconstructive Surgery
- Urology
- Trauma Care & Emergency Medical Services (T C & E M S)

**SPECIALTIES**
- Anaesthesiology
- Artificial Limb Centre
- Dermatology
- General Medicine
- General Surgery
- Obstetrics & Gynaecology
- Ophthalmology
- Orthopaedics
- Oral & Maxillofacial Surgery
- Otorhinolaryngology (ENT)
- Paediatrics
- Perinatology
- Physiotherapy
- Psychiatry
- Radiology & Ultrasound
- Respiratory Medicine

**MAGE, DIAGNOSTICS & LABORATORY SERVICES**
- Blood Bank & Component Therapy Unit
- Cardiac Cath-Lab
- Clinical Bio-Chemistry
- Histopathology
- 1.5 T MRI & Spiral C T Scan.
- Microbiology
- Pathology
- Radiology
- Advanced Medical Research lab
- Eye Bank
